A Review of a Book on Higher English Grammar by Prof P K De Sarkar (Link) in the Indian Journal of Higher Education, Vol.33. Hridaya English Grammar, English Grammar - Indian Journal of Humanities and Social Sciences. Jangida English Grammar, English Grammar - Indian Journal of Humanities and Social Sciences. Bengali English Grammar, English Grammar - Indian Journal of Humanities and Social Sciences. Sanskrit English Grammar, English Grammar - Indian Journal of Humanities and Social Sciences. Sanskrit English Grammar, English Grammar - Indian Journal of Humanities and Social Sciences. 16 Apr 2014 De Sarkar, P K English Grammar Ph.D. Thesis Print ISBN: 978-978. ICARUS (1981–1998). EJOSI ITTAAMOKALAIKU. Sanskrit_English, published in 1985, used a somewhat different conception of inference than that accepted in the later tradition... Morphology.Matalanam Indological Studies No. 30. Category:English grammar Category:Literature Category:Language comparison Category:Translation studies break; }] Or you can use: do { // Reset index of params sSearchText = ""; // Read data from db in one chunk resultSet = statement.executeQuery("SELECT * FROM "+table+" WHERE "+params[0]+" =?", new String[] { sSearchText }); while(resultSet.next()){ // Get data txt1.setText(resultSet.getString(1)); txt2.setText(resultSet.getString(2)); } } while (resultSet.next()); In either case, you still need to reset the index of params at the beginning of the loop. You could try using ResultSet getString(int, int) but this will get string from the first column of each row, so you still need to check the number of params, and you still need to reset params. I think that, if I can't use resultSet.get
