What is a good laptop for filmmaking? My current laptop is a Dell XPS 13 and it's great for my editing/creation work. I am very particular about the amount of RAM I can get (more if possible), since I work a lot in Premiere. I also need a 15" laptop because of my eyesight. I've tried using the Asus and it was too small and had a terrible keyboard. However, I can't tell you how often I get into situations where my MacBook Pro is charging at home and I am on the set or at
