## Diagbox 7.01 \_\_EXCLUSIVE\_\_

**Download**

Oct 12, 2016 - I tried scary01 like at the start of Diagbox 7.01 and I also tried diagbox007, but always wrong for update v7.76, v7. 77 to version 7.82... If this works, you'll have the latest version of Diagbox and won't have to worry about licensing issues. Thanks I have 7zip and 7zip64 from pendrivelinux If I run it via `sudo apt-get install 7zip64` I get: "This application cannot be run because it is not installed." When I try to use `sudo apt-get install 7zip64` this error message appears: "Error. The file cannot be accessed. I installed it with the command: `sudo apt-get install 7zip64`"
